

Nebraska Section Younger Members Group / UNL Student Chapter Panel Discussion

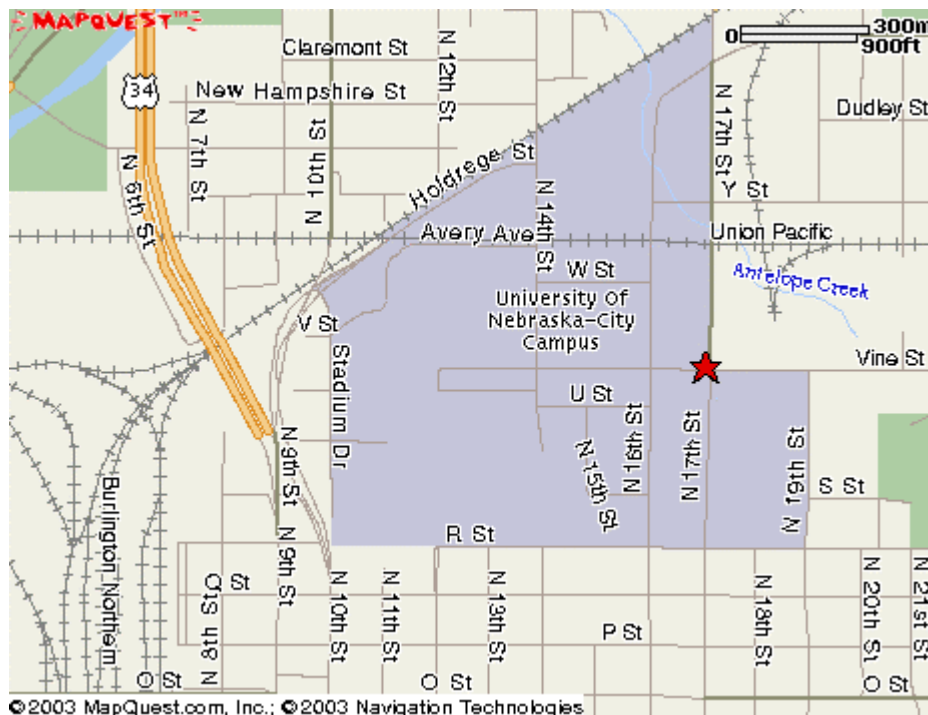

Tuesday, February 17, 2004 @ 7 pm  
Othmer Hall, Room 106 (UNL City Campus)

There will be pizza and pop provided by the YMG

The focus of our discussion will be "The Transition from College to the Real World"  
This, of course, is very broad. The idea is to provide the students with the perspective of what comes after college, and what it takes to get there. This can range from preparing for job interviews, to taking the FE and PE exams, to the every day routine of today's Civil Engineers. We will start with a brief introduction about ourselves--where we work, what field of civil engineering, etc. From there we will more or less follow what the students are interested in hearing about.

To volunteer or ask questions, let Lindsay or Marie know via phone (402-493-4800) or email ([ymg@neasce.org](mailto:ymg@neasce.org))

Othmer Hall is on the northeast corner of 17<sup>th</sup> & Vine. There is a parking garage on 17<sup>th</sup> & R if you can't find street parking closer to Othmer.
