<tr>
<td>10:15 AM</td>
<td>Ken Smith; Park Omaha David Cary, City of Lincoln</td>
<td>Urban Mobility</td>
<td>The Parking Division is in a transition from its traditional role as an operator of assets to managing multiple mobility services. This realignment comes from the growing demand to manage the city's curbside, not just for parking, but for transit, ride-hail services, bikes, scooters, food trucks, delivery services such as UPS, FedEx, UberEats &amp; DoorDash. Metropolitan Planning Organizations have been actively involved with the regulation of right of way leasing and curbside management which lends itself to the fulfilling this role.</td>
</tr>
<tr>
<td>10:45 AM</td>
<td>Mark Lutjeharms; City of Lincoln</td>
<td>The color of money IS green (An update to Green Light Lincoln)</td>
<td>Green Light Lincoln is an initiative being undertaken by Lincoln Transportation &amp; Utilities’ Traffic Engineering Division to improve traffic flow and traffic safety city wide. Through prioritization and implementation of several key components of the Traffic Management Master Plan, motorists throughout Lincoln will realize the impacts of this initiative. This presentation will provide an update to this program which is in Phase 3 and will include a discussion of the benefits being achieved.</td>
