Sign up by 11:00 am Monday, October 15, 2018 HERE.
From the President

Hello Nebraska Section! The Structural meeting on September 20th had a good turnout with 38 attendees, including 17 students. The next day the ASCE/SEAON Annual Structural Conference had 288 attendees. The next Section meeting will be the Construction meeting on Thursday October 18th.

If you are into social media you can now follow ASCE Nebraska Section on Facebook, Twitter, Instagram, and LinkedIn. Search for us on any of those platforms or go to neasce.org to find links to the Nebraska Section’s social media pages. I hope many of you will be a part of our new presence on social media by following us on any platforms you use.

I’m excited to be attending the ASCE 2018 Convention in Denver, Colorado from October 12-15. This convention will be a great opportunity to network with other ASCE members from around the world and learn more about what is going on in ASCE at the Society level. I will be sure to report back in the November newsletter about my experience at the convention.

Finally, I’d like to remind everyone to renew your ASCE membership before the end of the year. If you are a current member you have likely been seeing several emails already reminding you to renew. If you have not received those emails or are not currently a member of ASCE, just go to asce.org and click on the “JOIN” or “RENEW” button at the top of the page. Thank you for being a part of ASCE and I hope to see you at the October 18th meeting.

Sincerely,

Greg Seib, President, ASCE Nebraska Section
September Meeting Summary

Thursday evening, September 20th the Nebraska Section’s Structural Technical Group hosted a meeting. The topic of the presentation was about an Innovated Seismic Fuse for Structural Resiliency. The list below can be considered official documentation of attendance at the September 20th, 2018 meeting and presentation worth one (1) PDH credit.
